THE BACHELOR GIRLS.

A Scene Unrivalled in the Social History of Greensboro.

Last evening the light of the chandeliers in the elegant home of the Misses Balsley, on Mendenhall street, shed their soft rays upon a scene that perhaps stands unrivalled in the social history of Greensboro. The bachelor girls gave their first reception of the season. Queenly grace and matchless beauty presided over a paradise of southern hospitality, and had Bob Taylor gazed upon this picture, as was the delightful privilege of a number of our "bachelor boys," it would doubtless have furnished a new and more heavenly inspiration to his "Love, Laughter and Song."

"Progressive hearts," a very fascinating game, was chosen by the hostess for the evening's amusement, in which all were to compete for prizes. After a very close and spirited contest, Miss Lottie Peyton won the first prize—Ik Marvel's "Dream Life," in elegant gilt binding. The gentleman's prize—a beautifully engraved silver heart—was won by Mr Tallman.

At 11 o'clock the guests were shown to the dining room and seated at a table laden with everything to tickle the taste.

May great happiness and success attend every member of this very unique organization.

Those present were: Miss Francis O'Brien with John B. Fariss, Miss Lizzie Leigh Dick with I E. Avery, Miss Lottie Peyton with W. T. Powe, Miss Mary Goolsby with Dr. Chas Scott, Miss Alice Small with W. Frank Blount, Miss Lillian Staples with Mr Tallman, Miss May Small with C. P Sellers, Miss Mable Kase with J. S. Michaux, Miss Pearl Balsley with Dr. Robeson, Miss Lizzie Balsley with G. A. Rankin, Miss Ruth Porter with J. B. Sneed, Miss Nora Balsley.

Ten Young Men Wanted.

Lieut. Settle has received orders from the adjutant-generral to enlist ten desirable recruits for Battery G, 5th Artillery, San Juan, Porto Rico, and send from time to time as enlisted to Fort Wood, N. Y., to be forwarded thence to the battery. It is not very often that one battery of the regular army has as many as ten men from one locality and this offers the young men of this community an excellent opportunity to enter the United States service and at the same time not be separated from each other.

WESTERN N. C. CONFERENCE.

The Gathering of the Methodists at Concord.

APPOINTMENTS NEXT MONDAY.

Report of the Sessions of Yesterday Afternoon and This Morning. What Rumor Says.

Special to the TELEGRAM.

Concord, N. C., Nov. 24—At three o'clock yesterday afternoon Rev. J. J Tigert, D D preached in Central Methodist Church. Dr. Tigert is the editor of the Bi-Monthly Review and is one of the most prominet men in the church. It was a pleasure to the conference to hear him preach.

The annual Sunday School anniversary mass meeting was held at night and was addressed by Rev. Jas. Atkins, D D, Sunday School editor of the church. Dr. Atkins is a North Carolinian and a member of this conference. His present home is at Nashville, Tenn. He is a man of large mind and is a deep thinker.

In the opening of his address last night he stated that this age is the era of the child, and that more care and training are being given to children at the present time that at any age in the past.

His special theme was the Sunday School and he stressed the necessity of having well equipped Sunday Schools in every church and of the need of Sunday School Institutes where there can be a general exchange of views among Sunday School workers. He is very positively opposed to the care of a Sunday School class being placed in the hands of a worldly minded teacher.

When the names of the transfers to this conference were announced on yesterday there was some surprise expressed that the name of Dr. J. P. McFerrin was not read. For some time it has been expected that he would come to this conference from the Louisville conference, and it has been current in church papers that he would succeed Dr. Byrd at Asheville. It is now believed he has been transferred elsewhere. It was announced yesterday evening that Dr. H. F. Christy was wanted at the first church in Atlanta and also at the first church in Birmingham, but nothing definite is known. He has been in this conference seven years, having been transferred here from South Carolina. He has spent four years in Asheville, one in Reidsville and two in Charlotte.

THIS MORNING'S SESSION

Concord, N. C., Nov 24—The conference met at nine o'clock. Devotional exercises were conducted by Gaston [illegible]. Three remain on trial. Six were elected elders. Investigation committee reported trial necessary as to Green. A committee of ten was appointed. The report of the Christian Advocate was encouraging. Crawford made talk. Mansfield was located at his own request. An animated discussion arose. The latter did not go upon appointment last year, as he received no support. Tigert addressed the conference. Three were superannuated, one a supernumerary. D. Vance Price, of Holston conference, was readmitted. J. P. McFerrin was transferred from Louisville. Asheville and Charlote district characters passed. Reports were made. Adjourned at 12:30. Rumor says Chreitzberg goes to Atlanta or Birmingham. Appointments expected Monday. Many changes likely.

Washington, Nov. 24—Otis cables the practical ending of the insurrection. The government is broken completely, some of the cabinet are captured, and Aguinaldo is a fugitive. Otis says Aguinaldo did not escape through the American lines.

It was the first performance of Hamlet. "We shall not ring up tonight," said the stage manager. "Not ring up?" queried the star; "s'death! what's the matter?" "The ghost is as drunk as a lord," replied the stage manager. "Then of course we haven't a ghost of a show," murmured the star; for before tackling tragedy he had been a low comedian.

AT MR. HOBART'S FUNERAL

Several Members of Congress From the South.

GOSSIP IN POLITICAL CIRCLES

At Washington in Regard to the Probable Republican Nominee for the Vice-Presidency.

Special to The Telegram.

Washington, Nov. 24—Several members of congress passed through here yesterday from the south, and other parts of the country, enroute to Paterson to attend the funeral services over the remains of the late Vice-President Hobart. Among those passing through Washington from the south was Representative Bankhead, of Alabama, who is one of the leading candidates for the minority nomination for speaker of the house of representatives. Bankhead is satisfied that he will get a majority of the democratic caucus, and will be selected as the democratic leader. He says that Congressman Sulzer, of New York will not get a majority of the democratic caucus, as he claims, but that the nominee of the democrats for speaker will come from the south. He is convinced that from southern members tell him that he will have a majority over Richardson and De Armond.

It has been decided that Mrs. McKinley will not accompany the president to Paterson to attend the funeral of Hobart. At first it was stated at the executive mansion that Mrs. McKinley would probably accompany the president, but it is now settled that on account of the long and tiresome journey that none of the ladies of the cabinet will be present, so Mrs. McKinley will remain at the white house. The white house has been practically closed since the death of the vice-president, so far as visitors are concerned. The president attends to such duties as require his attention, and receives callers who have important business with the president, but aside from these the general visitors and callers who merely wish to pay their respects to the chief magistrate are excluded. The mansion will remain closed to visitors until after the funeral services at Paterson Saturday.

Since Mr. Hobart's death there has naturally been much gossip in political circles in Washington as to the probable republican nominee for the vice-presidency. It is difficult in advance of the holding of the national convention to fix upon any candidate for the second place, with any degree of certainty, as the selection of the vice-president is usually left open until the last moment, as it is always decided because of certain political exigencies which arise, and for the purpose of adding new strength to the ticket.

Among those mentioned as Hobart's probable successor on the republican ticket, are Governor Roosevelt, of New York, Secretary Root, Governor Voorhees, of New Jersey, Gen Fred Grant, Hon H. Clay Evans, Senator Frye, and many others have been mentioned, but by the time of the meeting of the national convention, the republicans will have plenty of available timber from which to draw for the vice-presidency. Senator Frye is much talked of in this connection, but he insists that he is not a candidate. A man with a political future, however, much he might prefer to refuse a vice-presidential nomination, would never dream of refusing to run for the office, if his party managers decided upon him as the best man for strengthening their ticket.

Congressman Bankhead's friends now claim that he will get a majority of the southern votes over the principal opponent, Richardson. They claim the entire delegation of Alabama, Georgia, Florida Louisiana, South Carolina, and majority of the North Carolina delegations. From North Carolina they assert that every democrat is for Bankhead with the exception of Representative Crawford, who is pledged to Richardson.

General Cox, the secretary of the United States senate, has arrived in Washington for the opening of the session of congress, and has registered at the Shoreham Hotel. He says that the political situation in North Carolina is satisfactory to the democracy. He looks for the passage of the proposed constitutional amendment by a large majority.

Hon. George E. Bowden, former congressman from the Norfolk, Va., district, was in the city the other day in the interest of Mr. Welsh for the postmastership at Phoebus, which is in that congressional district.

M. P. CONFERENCE.

First Day's Proceedings—Conference Sermon by Rev. J. S. Williams.

Correspondence Telegram

Pfyler, Stanly county, N. C., Nov. 24—The seventy-four sessions of the North Carolina Conference of the Methodist Protestant Church convened in Friendship church, Pfyler, Stanly county, N. C, near Albemarle, Nov 22, at 2.45 p. m.

Rev. W. F. Kenreth, president, opened the sessions with devotional services, reading a Scripture lesson. Then followed the singing with a spirit the Coronation by the choir and congregation.

The roll was called, an unusual number responding. The annual report of the president of the conference was read, and referred to proper committee.

EVENING SESSION.

The conference sermon was preached by Rev. J. S. Williams, of Henderson, N. C., his text being John 6:63, "The words that I speak unto you they are spirit and they are life." These were the words of Jesus and used to illustrate the transforming influence of the Holy Spirit when He is permitted to take possession of fallen and degraded humanity.

Rev. T. H Lewis, D. D., president of Western Maryland College, Westminster, Md., was introduced to the conference and presented the causes of the board of ministerial education and the Theological Seminary.

RESOLUTIONS OF SYMPATHY.

The following expression of sympathy was tendered Dr. McIver and faculty of the State Normal and Industrial College:

From some unknown cause sickness has entered the ranks of the young women of the State Normal & Industrial College in Greensboro. We, the members of the North Carolina Conference of the M. P. Church now in session, extend to the Normal president and faculty, who have been so faithful in caring for the sick; to its body of noble young women who have stood so bravely by the college and their stricken comrades; to the young ladies who are yet ill and their friends; to the patrons from whom death has taken a loved one, we pray that our living Heavily Father may restore the sick ones; that His tender mercies may be over the institution that has proven so great a blessing to our beloved state; that he will grant to President McIver and his associates daily strength for this ordeal.

HOUSE WARMING.

The Elegant New Office Building Opened to the Public Last Night.

Wharton & McAllister, agents for the Southern Loan & Trust Company kept open house last night from 7 till 9 o'clock and during the evening large numbers of our citizens called and inspected the elegant new office building.

The visitors were shown through the entire building, from the handsome oak telephone to the balcony on the fifth floor.

But we must say that the handsome suite of the company, on the second floor, with its private offices, its deposit boxes and customers' room, in the office of the Southern Loan & Trust Company, on first floor; offices, single and in suit, on first, second and third floors; reading room, one of the largest and most convenient rooms on the third floor, for the benefit of the occupants of the building; adjoining this are rooms supplied with various games; model bachelor apartments, on fourth and fifth floors, and convenient balcony on fifth floor.

Handsomely furnished toilet rooms for gentlemen are on second, fourth and fifth floors, and one for ladies on third floor. On the fourth and fifth floors large bath rooms, with the latest fixtures, have been put in.

The entire building is heated by steam and lighted by electricity, while it is also equipped with fire escapes and an arrangement for gas lighting. Fire hose, attached to stand-pipes, have been placed on every floor, and this, with a night watchman, who is on duty from sunset until sunrise, provides ample protection from fire.

Most of the rooms on west side of fourth and fifth floors have already been rented as bachelor apartments, and a good many of those on first, second and third floors are occupied as offices.

The orchestra was on third floor and furnished excellent music throughout the evening, and as a token of their appreciation Messrs. Wharton & McAllister presented this organization with a check for $10.

The talking machines in the parlors of Drs. Moore, on first floor, left entrance, were an attractive feature, and the offices of the various firms and professional men were thrown open and inspected.

The passenger elevator is of the most approved pattern and was crowded throughout the evening. It is estimated that 3,200 people rode on it. This elevator is proving a great convenience to the occupants of the building. It is run from 6 o'clock in the morning till 12 at night.

Every man, woman and child found the visit to this magnificent structure pleasant and interesting, and all Greensboro is proud of the building and its enterprising and progressive owners.

Men's leather lined Keswick Vici and Box Calf shoes are selling like hot cakes for $3.00 at Thacker & Brockmann's. Customers say these shoes are as good as the $3.50 and $4.00 shoes they sell elsewhere.

STARVING.

That day has past when the novelist and the poet must clothe themselves in rags and dwell in garrets with nothing to eat save their rejected manuscripts, while the north wind comes in at the [illegible] through the crevices of the room. [illegible] and [illegible] had often to experience—until the [illegible] hunger, and nothing [illegible] stone cold. Back to [illegible] circle of readers was narrow, and the best writers in the land had to depend upon the favor of kings and queens, princes and statesmen. But in this age of free education and improved printing facilities, when even the laborer, after his day of toil, has the financial means and the capacity and to a large extent the taste to enjoy by his evening fireside the best literary productions of the day—in these days when the general reading circle has expanded to well nigh illimitable proportions, there is but one excuse for the literateur to starve, or even lack the comforts if not the luxuries of life, namely, the inability to please. Whatever the writer's stock-in-trade—poetry or prose; whatever his style—sombre or gay, light or profound, scientific or sentimental, if it have merit (and the great masses of the people ever instinctively discover a writer's worth without the cold analysis of the critic) thousands of readers will take it up and will encourage and remunerate the writer for the entertainment or instruction afforded.

These thoughts occurred to us upon reading of the pathetic death of Miss Evelyn Adams, an authoress of New York, who recently literally starved in her garret room in the great city, trusting till the last that the genius which she probably did not possess would realize for her at least some "beefsteak and white bread." There is a world of pathos in the simple, pitiful story told in her diary left behind, found by her neglectful friends when it was too late to save.

The trouble with that class of which Miss Adams was doubtless a fair specimen is that they aim too high. They are satisfied in their grand ideas with nothing less than a "Paradise Lost" or a "Recessional." Forgetting that the heights of fame are reached only by years of unceasing toil, they try to set the world on fire in their youth and scorn to engage in some smaller work by which their bread could be earned as the years and labors were working their way to greater things. Many a penny-a-liner lives fat and sassy, while these self-imagined geniuses are starving in their garrets, laboring with their books and poems which when finished are not worth the paper consumed in creating them.

But occasionally they succeed and the world receives them with glory and praise; far oftener they fail, and the world despises them.

Boreas has the best of his southern adversary again today.

Mr. Dewey has had his house-warming.

In Gen. Joseph Wheeler's letter to some one in Huntsville, Ala., speaking of the Philippines, he says:

"While we have not advanced far into the country, yet the territory controlled by the United States contains more than a million people. We have given the people to understand that we are here to remain and very many of them have committed themselves to us. If we were to abandon the country, these people who desire American protection will be subjected to all kinds of reprisals, their property would be confiscated and many of them killed. For us to go on and conquer the country, and then withdraw our army and abandon the country, would make matters worse than to leave it now. We would have induced more people to adhere to us, and, therefore, would leave more people to become the victims of revenge."

We are sure there are few people in the United States who desire to see the American army withdrawn from the Philippines now after the expenditure of so much money, the loss of so many men and lastly the entrance of the union upon the policy of conquering the Filipinos. Such would be a lasting disgrace to this republic. But what the people want is a better prosecution of the war—a quick licking of the insurgents and the establishing of peace in the islands. To accomplish which we are sure the first necessary step would be the calling home of the incompetent Otis.—It will take a long time to end the strife if McKinley's favorites, instead of men of ability, are allowed to manage affairs.

There is nothing alarming in the chemical report on the Greensboro water supply, which will be found published elsewhere. Any person, by holding up a glass of the water, can tell there is something in it. The report does not say the water contains disease germs, but simply that it is chemically bad. Chemistry is a science which investigates the composition, nature and properties of material substances. The term "chemically" means in a chemical manner, and the word "chemical" pertains to chemistry. Water may be chemically bad and not contain bacteria, or it may be chemically pure and contain disease germs by the million. Therefore, the chemical analysis does not prove that the city water is bad, or that the well water is good—it simply shows the impurities contained in each.

A MEDAL FOR WOMEN OF [illegible]

[illegible] of the Women of South Carolina to be Presented in New York.

Washington, Nov. 23—The South Carolina Society for Patriotic Award has received a magnificent gold medal given by the women of the state, which will be presented to Lieutenant Victor Blue at an early date. As the officer is now on duty in New York city, on the battleship Massachusetts, it is probable that the presentation will be made there by Hugh Thompson, ex-governor of South Carolina.

The medal is 2½ inches in diameter and a quarter of an inch in thickness. The obverse bears the coat of arms of South Carolina. The inscription on this face of the medal is: "The women of South Carolina to Lieutenant Victor Blue, U. S. N., in high appreciation of his courage, enterprise and distinguished services in the Santiago de Cuba campaign, 1898."

The reverse side of the medal presents a design of the United States navy, the basis of the design being the great seal of the navy department.

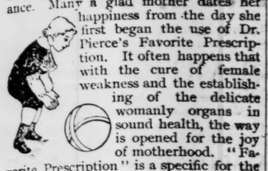
D. BENDHEIM & SONS,

230 South Elm.

They are noisy but they are nice. Who would exchange the merry noise of children at play, for the childless home where the clock tick can be heard hour after hour in the dull silence? But there are a great many who would like to people the silent house with the children that fate has refused them. Fate is often in this case only another word for ignorance. Many a glad mother dates her happiness from the day she first began the use of Dr. Pierce's Favorite Prescription. It often happens that with the cure of female weakness and the establishing of the delicate womanly organs in sound health, the way is opened for the joy of motherhood. "Favorite Prescription" is a specific for the chronic ailments peculiar to women. It cures them perfectly and permanently.



No other medicine can do for women so much as "Favorite Prescription." Do not therefore let any other medicine be palmed off on you as "just as good."

"Favorite Prescription" contains no alcohol, opium, cocaine or other narcotic. It is strictly a temperance medicine.

"I had been a sufferer from uterine trouble for about three years and the doctors that I consulted said I would have to go through an operation before I could give birth to a child," writes Mrs. Blanche E. Evans of Parsons, Luzerne Co., Pa., Box 41. "When about to give up in despair I saw the advertisement of Dr. Pierce's medicine and thought I would give it a trial. I bought a bottle of Dr. Pierce's Favorite Prescription, and after taking it felt better than I had for years. Felt improved before I had taken one-half of the bottle. After taking four and a half bottles I gave birth to a bright baby girl who is now four months old and has not had a day of sickness since and is as bright as can be."

A woman's complexion often suffers because of poisonous accumulations in the system. Dr. Pierce's Pleasant Pellets remove these accumulations and cleanse the complexion. They regulate the stomach, liver and bowels.

DIVING BOATS FOR BRITAIN

Natal Attache Wants English Navy to Have Holland Vessels.

New York, Nov 22—Captain Charles L. Outly, R. N., naval attache to her British Majesty's embassy to the United States after inspecting the Holland submarine torpedo boat today in behalf of his government, said:

"It is my intention to recommend to the board of admiralty of the British government that they immediately consider the merits of the Holland with a view to the adoption of vessels of her type into the British navy. She is, to my mind, the most formidable type of submarine boat, and has demonstrated that she is the only successful one.

"The vessel could not only be used in keeping the harbors and the coasts free from invading fleets, but with vessels of the Holland type there would be no fear of submarine mines or other obstructions dangerous to navigation, as she could destroy them readily.

"It is my opinion that there is no question that the submarine boat has come to stay and that such boats must be reckoned on in future naval warfare."

It is expected that the boat will arrive at Washington shortly after congress convenes.

A. M. E. ZION CONFERENCE.

The Second Day—Sermon by Dr. Thomas, of Charlotte

The second day's session of the A. M. E Zion Conference consisted mainly of reports of lay delegates and presiding elders—showing marked increase.

Last night the sermon was preached by Dr. J. W. Thomas, of Charlotte. After the sermon, Mayor Z. V. Taylor delivered an address of welcome on behalf of the city. It is said that the conference has never before received such an open-hearted greeting from the chief officer of a city.

The mayor expressed his pleasure at having the conference here and testified to the worth of the colored people in their interest for the advancement of the city of Greensboro. They have allied themselves with the progressive element whenever the moral or material interests of the city were in question. Side by side the two races worked for the establishment of the State Normal and Industrial College for white women and for the A. & M. College for colored youth. The church in which the conference is held he considered a monument to the progressiveness of the race, it having been built in a year. He believed that to the teacher and preacher was due as leaders credit for the improvement of the race, and mentioned the virtues as a stimulus to greater effort.

Bishop Hood called upon Collector J. C. Dayvault to respond and did so thanking the mayor for his kindly words and spirit. He was glad of the cordial relations of the races in Greensboro, and believes they generally exist [illegible]

IT PAID TO STORE COKE.

Carnegie Company Draws From Big Stock Pile.

Pittsburg, Pa., Nov. 22—A mountain of coke, reserved by the Carnegie Steel Company at its Edgar Thomson Works, at Bessemer, is in a present emergency being drawn upon for fuel. The coke, about 180,000 tons of it, was piled up there in 1893 and 1894, when it was selling for 90 cents per ton. Now, when enough cars cannot be secured to haul fuel from the mines, it comes in handy.

The cost of unloading the coke in the stock pile was about $1.50 per ton. The intention was to keep it for just such a time as this or to have it in case of a strike. Today it would cost $3 25 per ton with the increased price of labor and coke. Taking the first price of the coke with 5 per cent. interest on the investment to date shows that it has cost $351,000 to maintain the pile: the cost for that quantity of coke today would be $585,000, leaving the company a saving of $234,0 0.

These figures are not accurate, but, in the main, will illustrate that, aside from the great convenience of having a stock pile to draw from in case of necessity, the investment paid.

Scrofula, a Vile Inheritance.

Scrofula is the most obstinate of blood troubles, and is often the result of an inherited taint in the blood. S. S. S. is the only remedy which goes deep enough to reach Scrofula; it forces out every trace of the disease, and cures the worst cases.

My son, Charlie, was afflicted from infancy with Scrofula, and he suffered so that it was impossible to dress him for three years. His head and body were a mass of sores, and his eyesight also became affected. No treatment was spared that we thought would relieve him, but he grew worse, until his condition was indeed pitiable. I had almost despaired of his ever being cured, when by the advice of a friend we gave him S. S. S. (Swift's Specific). A decided improvement was the result, and after he had taken a dozen bottles, no one who knew of his former dreadful condition would have recognized him. All the sores on his body have healed, his skin is perfectly clear and smooth, and he has been restored to perfect health. MRS. S. S. MABRY, 200 Elm St. Macon, Ga.

For real blood troubles it is a waste of time to expect advice from the doctors. Blood diseases are beyond their skill. Swift's Specific,

S.S.S. For The Blood

reaches all deep-seated cases which other remedies have no effect upon. It is the only blood remedy guaranteed purely vegetable, and contains no potash, mercury, or other mineral.

Story of a Slave.

To be bound hand and foot for years by the chains of disease is the worst form of slavery. Geo. D. Williams, of Manchester, Mich., tells how such a slave was made free. He says: "My wife has been been so helpless for five years that she could not turn over in bed alone. After using two bottles of Electric Bitters, she is wonderfully improved and able to do her own work." This supreme remedy for female diseases quickly cures nervousness, sleeplessness, melancholy, headache, backache, fainting and dizzy spells. This miracle-working medicine is a godsend to weak, sickly, rundown people. Every bottle guaranteed. Only 50 cents. Sold by C. E. Holton, druggist.

If it takes nine tailors to make a man, how is it that one tailor can often break him?

Prevented a Tragedy.

Timely information given Mrs. George Long, of New Straitsville, O., prevented a dreadful tragedy and saved two lives. A frightful cough had kept her awake every night. She tried many remedies and doctors but steadily grew worse until urged to try Dr. King's New Discovery. One bottle cured her, and she writes this marvelous medicine also cured Mr. Long of a severe attack of pneumonia. Such cures are positive proof of the matchless merit of this grand remedy for curing all throat, chest and lung troubles. Only 50c and $1.00. Every bottle guaranteed. Trial bottles free at C. E. Holton's drug store.

It is better to be a gas collector than a poet, although they both dabble in metres.

Chamberlain's Pain Balm Cures Others, Why Not You?

My wife has been using Chamerlain's Pain Balm, with good results, for a lame shoulder that has pained her continually for nine years. We have tried all kinds of medicines and doctors without receiving any benefit from any of them. One day we saw an advertisement of this medicine and thought of trying it, which we did with the best satisfaction. She has used only one bottle and her shoulder is almost well.—Adolph L. Millett, Manchester, N. H. For sale by C. E. Holton, druggist.

A Filbert street coffin manufacturer displays a sign which reads: "Positively no goods sold at retail."

No Cure—No Pay.

That is the way all druggists sell Grove's Tasteless Chill Tonic for Chills and Malaria. It is simply iron and quinine in a tasteless form. Children love it. Adults prefer it to bitter nauseating tonics. Price, 50c

GREENSBORO WATER BAD.

Result of Analysis by State Chemist. College Water Was Good.

Col A. W. Shaffer, a member of the state board of health, returned yesterday from Greensboro, where he went to inspect the sanitary arrangements at the State Normal and Industrial College. As readers of the Post have been informed, Col. Shaffer ascertained that the sewer and drainage pipes under the ground were defective and in very bad condition.

The result of the analyses of samples of water sent to the state chemist was made known yesterday. The water taken from the well was ascertained to be good. The sample of city water, which was chemically analyzed, was bad. The comment of the state chemist was that the water was very bad and contained chemical formations.—Raleigh Post.

Vick's Electric Corn Salve, 10c., gives smiles for frowns.

The Poet Burns,

Not the least of the advantages attending life assurance is the serenity of mind which attends the provident man lying on a bed of sickness, or when he is in prospect of death—so unlike that painful anxiety for the future welfare of the family not provided for. The poet Burns, in writing to a friend a few days before his death, said that he was "still the victim of affliction. Alas! Clark, I begin to fear the worst. Burns' poor widow and a half a dozen of his dear little ones, helpless orphans; there, I am weak as a woman's tear. Enough of this, 'tis half of my disease!"

"If you would escape the rock upon which the lamented Burns split;" take shelter from the storm that is bound to spend its fury upon you when the fatal summons comes, by at once securing the magnetic contract offered by the Provident Savings.

J. Sterling Jones,
Manager,

Not a Surprise.

It will not be a surprise to any who are at all familiar with the good qualities of Chamberlain's Cough Remedy, to know that people everywhere take pleasure in relating their experience in the use of that splendid medicine and in telling of the benefit they have received from it, of bad colds it has cured, of threatened attacks of pneumonia it has averted and of the children it has saved from attacks of croup and whooping cough. It is a grand, good medicine. For sale by C. E Holton, druggist.

It's the little things that count. A woman can't make a man propose, but a tiny flea can usually bring him to the scratch.

Used by British Soldiers in Africa.

Capt. C. G. Dennison is well known all over Africa as commander of the forces that captured the famous rebel Galishe. Under date of Nov. 4, 1897, from Vryburg, Bechuanaland," he writes: "Before starting on the last campaign I bought a quantity of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which I used myself when troubled with bowel complaint, and had given to my men, and in every case it proved most beneficial."—For sale by C. E. Holton, druggist.
